  end

  option "without-completions", "Disable bash/zsh completions"

  depends_on "go" => :build

  def install
    system "script/build"
    bin.install "hub"
    man1.install Dir["man/*"]

    if build.with? "completions"
      bash_completion.install "etc/hub.bash_completion.sh"
      zsh_completion.install "etc/hub.zsh_completion" => "_hub"
    end
  end

  test do
    HOMEBREW_REPOSITORY.cd do
      assert_equal "bin/brew", shell_output("#{bin}/hub ls-files -- bin").strip
    end
  end
end
```

**Doesn't use
the root user**

**Uses system
libraries**

depends_run

depends_lib

```
port:rsync \
port:p5.12-error
port:p5.12 \
port:curl \
port:zlib \
port:openssl \
port:expat \
port:libiconv
```

Updates using Git

**Install prefixes use
package/version**

```
$ cd /usr/local/Cellar  
$ find wget  
wget/1.13.4/AUTHORS  
wget/1.13.4/bin/wget  
wget/1.13.4/ChangeLog  
wget/1.13.4/COPYING  
wget/1.13.4/INSTALL_RECEIPT.json  
wget/1.13.4/README  
wget/1.13.4/share/man/man1/wget.1
```

Avoids
patching

mikemcquaid added a note 3 days ago

Owner

Can you please submit this as a patch to the upstream developers of this project and add a link to the upstream patch submission and explanation of why the patch is needed in a comment in the formula file. Thanks!
