Welcome on Lingua Libre!

Lingua Libre is a library of audio records that everyone can complete by giving a few words, some proverbs, a few sentences, and so on.

Lingua Libre has been designed so that everyone can pass on to future generations the fragile treasure of orality.

The words, phrases, expressions thus collected thanks to you will improve some Wikimedia projects (like Wikipedia, Wikimedia Commons and the Wiktionary) and help specialists in their work.

FactGrid

a database for historians

Welcome to PersonalData.IO,

the integrative toolbox addressing surveillance capitalism.

The problem... and our solution!

We have all lost control over our personal data, yet we have no space where we can collectively reclaim it. We want to encourage collaborative dynamics between the general public and within civil society in all of its diversity (activists, researchers, educators, etc). These dynamics materialize around information about the personal data ecosystem, as well as cutting edge tools to respond to current practices and shape the future of the personal data economy.

About us

We are a small Geneva nonprofit focused on data protection. We want to empower an agile civil society to respond to threats associated with personal data. You can find more info about us here.

Getting involved: general public

This is Work in Progress.

Have a look at: Subject Access Requests, Campaigns and Visualizations.

You can join us at the Project:Community Portal or our on our chatting channels:
