

Unearthing the impact of survivorship bias on women in FOSS to build more inclusive communities

Julia Lamenza - Site Reliability Engineer

Imma Valls - Staff Developer Advocate @ Grafana

FOSDEM 25

What to expect from this presentation?

1. **The Landscape of Women in Tech & FOSS**
2. **Barriers to Entry and Retention**
3. **Survivorship Bias**
4. **Intersectionality and Survivorship Bias**
5. **Building Diverse & Inclusive Communities**

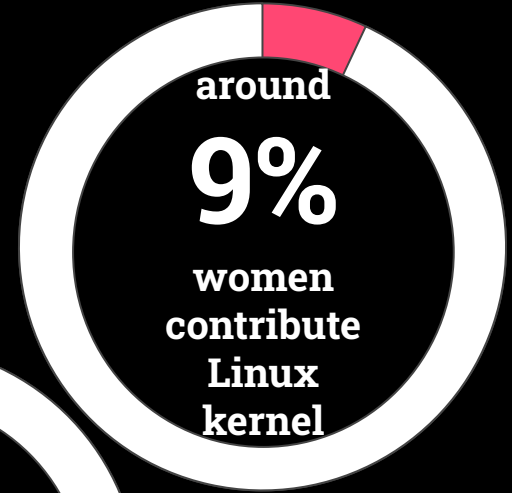

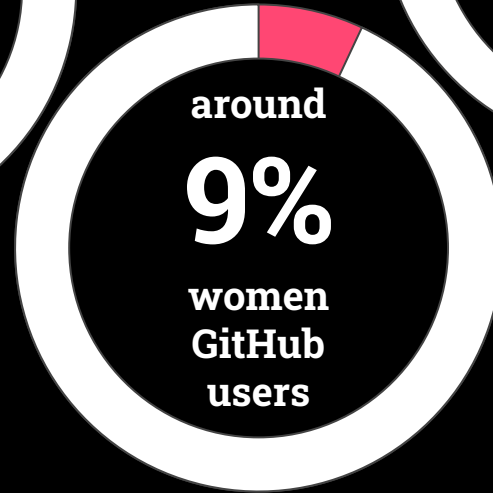

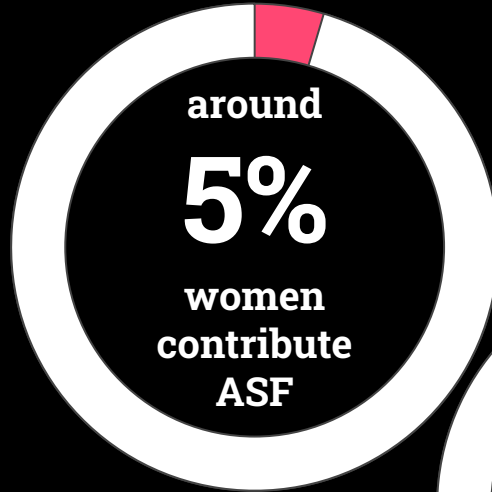

1. The Landscape of Women in Tech

<https://www.accenture.com/content/dam/accenture/final/a-com-migration/pdf/pdf-134/accenture-a4-gwc-report-final1.pdf> (2020)

1. The Landscape of Women in FOSS

<https://openforumeurope.org/where-are-women-of-open-source> (2017)
<https://www.womentech.net/en-es/women-in-tech-stats> (2024)

FOSDEM 25

2. Barriers to Entry and Retention

lacking access to resources
gender pay gap
caregiving
different communication styles
work-life balance
online abuse
exclusion from informal networks
lack of mentors
lack of role models
microaggressions
harassment
gender bias and discrimination
gender bias and discrimination
lack of opportunities

2. Barriers to Entry and Retention

**I changed my
GitHub profile to
make my gender
non-identifiable**

**I feel pressure to be
perfect because I feel
people are watching
me and judging me as
a woman in tech**

**It's hard to find time
to contribute to open
source when I'm also
juggling a full-time
job and family
responsibilities**

**I'm constantly
being interrupted
or talked over in
meetings. It's like
my voice doesn't
matter**

2. Barriers to Entry and Retention

I feel like I'm not good enough to contribute to open source. I'm afraid of making mistakes or being publicly judged

I had to develop a thick skin to deal with the negativity and harassment. It was exhausting

I was tired of being the only woman in the room. It was isolating and made it hard to feel like I belonged

I wish there were more female mentors in open source. It would be great to have someone to look up to and learn from

3. Survivorship Bias

What is Survivorship Bias?

https://en.wikipedia.org/wiki/Survivorship_bias

3. Survivorship Bias

https://en.wikipedia.org/wiki/Survivorship_bias#/media/File:Survivorship-bias.svg

**World War 2:
Location of the
bullet holes on
the surviving
bombers**

3. Survivorship Bias

https://en.wikipedia.org/wiki/Survivorship_bias#/media/File:Survivorship-bias.svg

**Make the
planes safer in
the future by
strengthening
the damaged
areas!**

3. Survivorship Bias

https://en.wikipedia.org/wiki/Survivorship_bias#/media/File:Survivorship-bias.svg

**Protection was
needed where
deadly shots
are located**

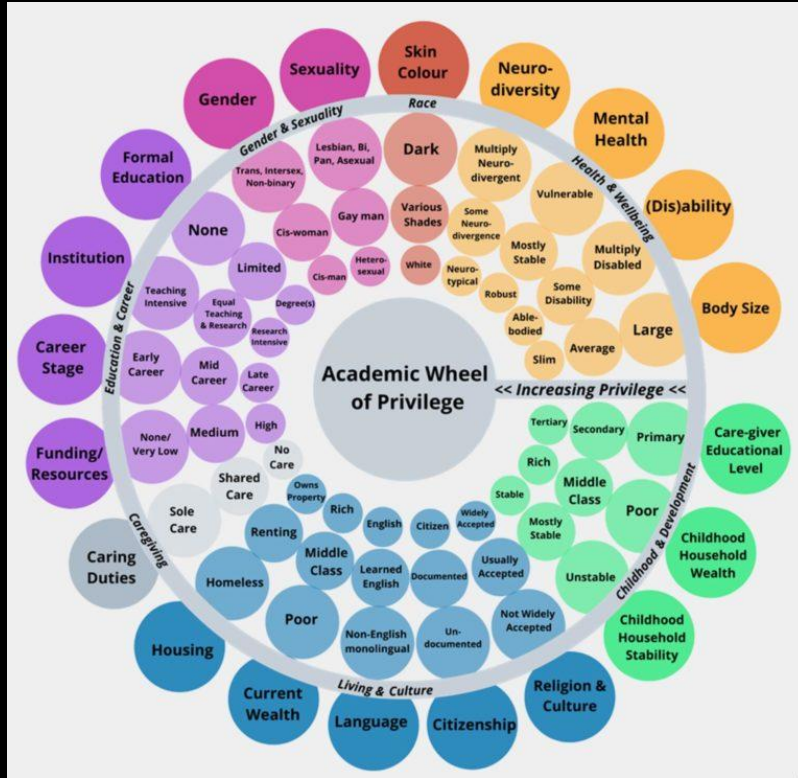

3. Survivorship Bias

**How do we Identify our Own
Survivorship Bias?**

4. Intersectionality and Survivorship Bias

<https://sites.nd.edu/com/2023/02/20/the-intersectionality-of-privilege/>

The Intersectionality of Privilege

4. Intersectionality and Survivorship Bias

neuro-typical
middle-class
engineer
white European
late career
cis-woman
English
citizen
able-bodied
learned
Spain
degree

5. Building Diverse & Inclusive Communities

- **Diversity is inviting a variety of people to contribute**
- **Inclusion is making sure they feel welcome, comfortable and safe to contribute**

5. Building Diverse & Inclusive Communities

- **Better Software**
- **Stronger Communities**
- **Innovation**
- **Sustainability**
- **Social Impact**

5. 1. Resources for building Diverse & Inclusive Communities
