michael.meeks@collabora.com

"Stand at the crossroads and look; ask for the ancient paths, ask where the good way is, and walk in it, and you will find rest for your souls..." - Jeremiah 6:16

Writer - Collaborative Text docs

Screenshot of LibreOffice Writer showing a collaborative document titled "Recipe.odt".

The document content is as follows:

Recipe

Strawberry Vanilla Pancakes

Ingredients

- 200g self-raising flour
- 1 1/2 tsp baking powder
- 1tbsp golden caster sugar
- 3 large eggs
- 25g melted butter, plus extra for cooking
- 200ml milk
- vegetable oil, for cooking
- To serve: fruit, jam or cooked bacon and maple syrup

Preparation

1. Mix 200g self-raising flour, 1 1/2 tsp baking powder, 1 tbsp golden caster sugar and a pinch of salt together in a large bowl.
2. Create a well in the centre with the back of your spoon then add 3 large eggs, 25g melted butter and 200ml milk.

Collaboration sidebar:

- Richard Brock: Does the title look better aligned centrally?
- Naomi Obbard: I think it looks better on the left.
- Richard Brock: Is this the correct final quantity?
- Naomi Obbard: Yes :)
- Richard Brock: Good work on the picture!

Draw- Collaborative Diagramming

The screenshot shows the LibreOffice Draw application interface. The main area displays a presentation slide titled "Why the Collabora Online Subscription?". The slide features a purple header with the "Collabora Online" logo and the title, followed by a subtitle: "Focused on providing high quality software, thoroughly tested and ready for business". Below the subtitle, there is a paragraph of text. To the left of the main content, there is a preview pane showing a thumbnail of the slide. On the right side, the "Object Manager" panel is open, showing a tree view of the slide's components. The slide contains several sections with icons and bullet points:

- Assured Digital Sovereignty & Security**: Includes a lock icon. Bullet points:
 - On-premise / self hosted - control your data, app & network
 - No ties to any storage or authentication system
 - Documents are not broadcasted to all clients, but shared as pixels
 - Each document session gets its own private jail - with no local copy between document editing sessions
 - Simple integration based on a WOPI API providing storage & authentication
- No Limitations for Your Productivity**: Includes a speech bubble icon. Bullet points:
 - All code is Open Source
 - Full featured, rapid improvement
 - Available for all major PC and mobile platforms
 - Flexible - many different integrations into 3^d party solutions
 - Excellent interoperability with DOCX, XLSX, PPTX and other Microsoft files
- A Cost-Effective & Flexible Plan**: Includes a hand holding a dollar sign icon. Bullet points:
 - Simple pricing plan
 - High Availability as standard
 - Unlimited connections per user
 - Unlimited servers, containers and VMs as standard
 - Unlimited external collaborators included
 - Easy to deploy - stateless service
 - Complete solution - no unexpected extra support costs for database, NFS, message-bus
 - Dynamically deploy your workloads with Kubernetes or your own orchestration
- Product Management Relationship**: Includes two people icon. Bullet points:
 - Direct contact with the Collabora team to optimise the software for your business
 - Ability to request feature development
 - Priority input into the product roadmap
- Comprehensive Support & Maintenance**: Includes a SLA icon. Bullet points:
 - Service Level Agreement (SLA)
 - Unlimited number of support incidents
 - Setup and configuration support
 - Direct contact with the engineers behind the product via the support platform
- Full Online Office Functionality**: Includes a document icon.

The "Object Manager" panel on the right lists the components of the slide, including shapes, group objects, and individual Bézier curves for each element.

Collabora for Android and iOS

Re-using responsive UI

- Either:
 - Run a WebView component on iOS/Android in your app – and collaborate
- Or
 - A fat-client / off-line app that can host the COOL server locally for editing

Traditional configuration

Highly available & simply scalable

eg. grab our helm-chart

- Incremental / available upgrade-ability
- No extra services
- Management (eg. Kubernetes)

*HA balancer
of choice:
HAproxy,
nginx, F5, ...*

*Existing
Load
balancing*

Collate information from
multiple documents

Automatic Documents - Scripting

Write a script to:

- Link your parts database to a template
- Produce project reports with charts from time sheets
- Streamline contract and document creation

The screenshot shows a software interface for managing document properties. On the left, there's a 'Properties of "docStructureChartExampleOriginal"' dialog with tabs for General, Description, Custom Properties, Font, and Statistics. It lists fields like Title, Subject, Keywords, Contributor, Coverage, Identifier, Publisher, Relation, Rights, Source, Type, and Comments, each with a corresponding text input field. A 'Help' button is at the bottom. To the right of this dialog is a large JSON code editor window. The code defines a 'Transforms' object with a single entry for 'DocumentProperties'. This entry maps various properties to their respective values: Title to 'Title TxT', Subject to 'Subject TxT', and so on for all other fields. The JSON code is as follows:

```
1  {
2   "Transforms": {
3     "DocumentProperties": {
4       "Title": "Title TxT",
5       "Subject": "Subject TxT",
6       "Keywords": [ ],
7       "Contributor": ["Contributor1 TxT", "Contributor2 TxT"],
8       "Coverage": "Coverage TxT",
9       "Identifier": "Identifier TxT",
10      "Publisher": ["Publisher TxT", "Publisher2 TxT"],
11      "Relation": ["Relation TxT", "Relation2 TxT"],
12      "Rights": "Rights TxT",
13      "Source": "Source TxT",
14      "Type": "Type TxT",
15      "Description": "Description TxT"
16    }
17  }
18 }
```

Below the JSON editor is another 'Properties of "temp2"' dialog, which shows the same set of properties with their values filled in according to the script. The values include 'Title TxT', 'Subject TxT', 'Contributor1 TxT, Contributor2 TxT', 'Coverage TxT', 'Identifier TxT', 'Publisher TxT, Publisher2 TxT', 'Relation TxT, Relation2 TxT', 'Rights TxT', 'Source TxT', 'Type TxT', and 'Description TxT'.

Automatic Documents

The screenshot shows a Microsoft Word document titled "Inward-Ship-Report (with form controls).docx". The ribbon menu is visible at the top, with the "Form" tab selected. A callout box highlights the "Form" tab and the "Properties" icon in the ribbon. Below the ribbon, a toolbar contains icons for Rich Text, Checkbox, Dropdown, Picture, Date, and Properties. The main content area displays a form titled "PART A: ARRIVAL DETAILS". The form includes fields for the name of the ship (HMB Endeavour), port of arrival (Poverty Bay), date of arrival (a date picker set to January 9, 2025), port arrived from (Plymouth), and a placeholder for the agent's name and address. A calendar grid shows dates from January 1 to 31, 2025. Below the calendar is a section titled "LIST SUBSEQUENT PORTS OF CALL WITHIN NEW ZEALAND" with a table for recording subsequent ports.

Rich Text Checkbox Dropdown Picture Date Properties

PART A: ARRIVAL DETAILS

Name of ship	HMB Endeavour	Port of arrival	Poverty Bay					
Date of arrival	Choose a date	Time of arrival	Click here to enter					
Name of person in charge	January 2025							
IMO number	Click here to enter	Su	Mo	Tu	We	Th	Fr	Sa
Gross register tonnes	C		1	2	3	4		
Period of stay in New Zealand	5	6	7	8	9	10	11

LIST SUBSEQUENT PORTS OF CALL WITHIN NEW ZEALAND (Please record on a separate sheet)

Next New Zealand ports	Estimated date
1 Auckland	10/31/24

Using form controls to read or write information

Automatic Documents - For Your Needs

- Follows **open standards**
- Work with your **existing templates**
- Create DOCX, ODT, PDF...
 - Avoid accidental additions/deletions in documents with PDF export

OR

- Work with **editable** DOCX/ODT and pre-populated fields

Automatic Documents - Intuitive Integration

The screenshot illustrates the integration of automatic documents within the Nextcloud platform. It shows three main windows:

- Pick a template for Nextcloud conference 2024**: A modal window displaying two template options: "Blank" and "Event Permit Application".
- Fill template fields**: A form window where fields are being populated with event details. The fields include:
 - Name of the Organizer/Organization: Nextcloud
 - Email: sales@nextcloud.com
 - Phone number: (empty)
 - Event Coordinator: Event Coordinator
 - Event name: Nextcloud Conference 2024
 - Event date: (empty)
 - Event location: (empty)
 - Event description: (empty)
 - Checklist items:
 - Minimum of 2 security guards per 100 attendees
 - On-site communication plan established between security staff
 - First aid station set up and staffed
- Event Permit Application Form**: The final generated document, which is a copy of the "Event Permit Application" template filled with the provided information.

The generated document includes sections for:

- 1. Applicant Information**

Name of Organizer/Organization:	Nextcloud
Contact Information	
Email:	sales@nextcloud.com
Phone Number:	+49 1234 567890
Event Coordinator:	Jane Doe
- 2. Event Details:**
 - Event Name: Nextcloud Conference 2024
 - Event Date: Click here to enter text

(Example integration in Nextcloud)

Automatic Documents - Powerful Output

Create charts from documents

- Feedback forms
- Timesheets
- Flexible for your needs

The screenshot shows a Microsoft Word document interface. At the top, there's a ribbon menu with tabs: File, Home, Insert, Layout, References, Review, Format, Form, View, and Help. Below the ribbon, there's a toolbar with icons for Rich Text, Checkbox, Dropdown, Picture, Date, and Properties. The main content area contains a 3D stacked area chart titled "Fixed issues". The chart tracks the number of fixed issues over time, from January 2023 to June 2023. It shows multiple series stacked on top of each other. The legend on the right identifies six series: Daniel (dark blue), Lisa (red), Maria (yellow), Thomas (green), Charles (maroon), and Jennifer (light blue). The Y-axis represents the count of issues, ranging from 0 to 16. The X-axis shows months from January to June. The chart is set against a background of a Microsoft Word document with a header and footer.

Thanks to OSI!

The screenshot shows a LibreOffice Writer document titled "Recipe.odt". A large callout box highlights a series of nested comments between users Richard Brock and Naomi Obbard. The comments are as follows:

- Richard Brock (Thu, 5 Sept 2024): Does the title look better aligned centrally?
- Naomi Obbard (Thu, 5 Sept 2024): I think it looks better on the left.
- Richard Brock (Thu, 5 Sept 2024): Is this the correct final quantity?
- Naomi Obbard (Thu, 5 Sept 2024): Yes :)
- Richard Brock (Thu, 5 Sept 2024): Good work on the picture!
- Richard Brock (Tue, 28 Jan 2025): Sometimes comments or replies can be very long. In this case - it is useful to be able to view the comment with a larger window, not at the side.
- Richard Brock (Tue, 28 Jan 2025): autem irure dolor in reprehenderit in voluptate velit esse cillum dolore eu fugiat nulla pariatur. Excepteur sint occaecat cupidatat non proident, sunt in culpa qui officia deserunt

The ribbon menu at the top includes Text, Heading 1, Heading 2, Heading 3, Heading 4, and Subtitle tabs. The "Text" tab is selected. The status bar at the bottom indicates "Page 1 of 2 | 256 words, 1,305 characters | Insert".

More integrations

Integrating with WordPress

Easy to install WordPress plugins:

- Install plugin: <https://wordpress.org/plugins/collabora-online/>
- Upload document, and add a “block” to your page to collaborate

The screenshot shows a WordPress sample page titled "Sample Page". At the top, there's a navigation bar with links like "Edit site", "21", "New", and "Edit Post". Below the title, the content area starts with the text "Hello world!". Underneath it, there's a timestamp "Sep 26, 2024 — by hub in Uncategorized". A "Collabora Online" block is present, containing three cards with guitar models: "GuitarMoonShop.com New Guitar Models", "Fender Stratocaster", and "Gibson Les Paul". At the bottom left, there's a note about the first post and an attachment link for "Guitarmoonshopmodels.odp".

The screenshot shows the Collabora Online editor interface with a document titled "Guitarmoonshopmodels.odp". The toolbar at the top includes "File", "Home", "Insert", "Layout", "Review", "Format", "View", and "Help". The "Home" tab is selected. The main workspace contains three cards, each featuring a guitar image and some text. The right side of the screen shows various editing tools and a sidebar.

The screenshot shows the Microsoft Word ribbon with the 'File' tab selected. Below the ribbon, there is a form titled 'Inward-Ship-Report (with form controls).doc'. The form includes fields for 'Name of ship', 'Date of arrival', 'Time of arrival', 'Name of person in charge', and 'IMO number'. A watermark of the New Zealand Customs Service crest is visible.

The screenshot shows the Microsoft Word ribbon with the 'File' tab selected. A callout highlights the 'Download' button in the ribbon. Below the ribbon, a 'PDF OPTIONS' dialog box is open, showing various export settings like 'General', 'Initial View', 'User Interface', 'Links', and 'Security'. The 'General' tab is selected, showing options for 'Range' (All), 'Images' (Lossless compression, JPEG compression Quality: 90%, Reduce image resolution to: 300 DPI), and 'Structure'.

Interoperability improvements

- Further compliance with OpenXML - ISO/IEC 29500
- New Excel functions
 - eg. XLOOKUP, XMATCH, RANDARRAY, SEQUENCE...

The screenshot shows a Microsoft Excel spreadsheet titled "GuitarMoonShop_SEODashboard.xlsx". The spreadsheet contains two main tables:

- Backlinks**: A table with columns "Backlinks" and "URLs". It lists various URLs along with their corresponding backlink counts. The "Backlinks" column includes values like 30, 79, 97, 285, 18, and 32.
- Indexed URLs**: A table with columns "Indexed URLs" and "URLs". It lists URLs with their indexed counts. The "Indexed URLs" column includes values like 637, X, 32, 9, 11, 40, and 20.

A callout box highlights the formula bar where the formula `=XLOOKUP()` is being typed. A tooltip for the `XLOOKUP` function is displayed, explaining its parameters: "Search criterion, Search Array, Result Array, Result if not found, Match Mode, Search Mode". The tooltip also notes that "The value to be found in the first column".

The status bar at the bottom of the screen shows the file was last saved 1 hour ago.

Conclusions: join in !

Try out the latest Collabora Online 24.04.11.x

- Automatic documents – for reports / templating / analysis
- Better interoperability, integrations: WordPress, Drupal, XWIKI
- Slicker UX, easier to deploy right

Still lots of fun to be had: do get involved !

- Lots of easy UX wins and polish to work on: JS, CSS, C++ to taste ...
- Follow our [calc](#) & [writer](#) tracker performance bugs: a profile a week ...
- [Get involved in COOL and LibreOffice Technology](#)

Collabora Online

Oh, that my words were recorded, that they were written on a scroll, that they were inscribed with an iron tool on lead, or engraved in rock for ever! I know that my Redeemer lives, and that in the end he will stand upon the earth. And though this body has been destroyed yet in my flesh I will see God, I myself will see him, with my own eyes - I and not another. How my heart yearns within me. - Job 19: 23-27

Thank you!
