

Monitoring & Observability

Waffles@Brussels

Welcome

This is the ninth Monitoring & Observability devroom
in a row.

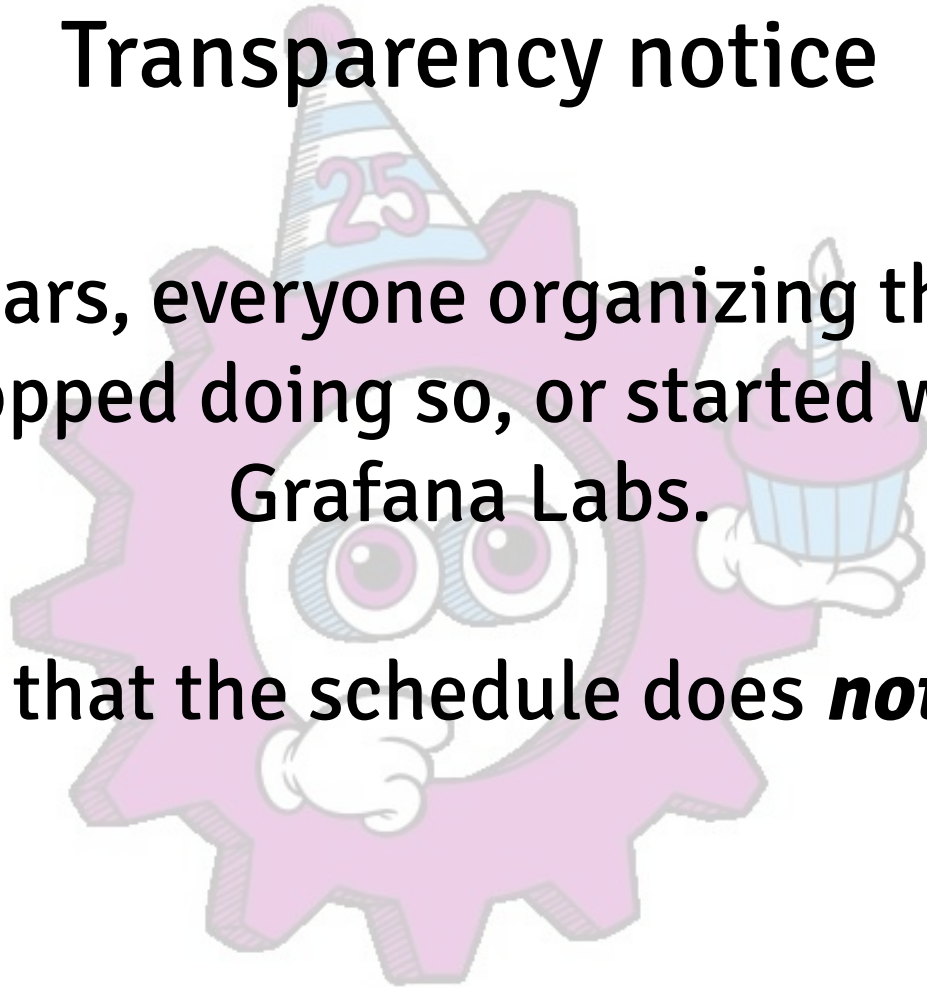

One of the longest-running devrooms, by now.

Transparency notice

Over the years, everyone organizing this devroom either stopped doing so, or started working at Grafana Labs.

You'll notice that the schedule does ***not*** reflect that.

Themes

There's usually a natural theme in submissions and thus selection

For the third year in a row, it's less about revolution, more about evolution

It's about applying all of this to your existing workloads

Stickers & Swag

There's a sticker and swag swap table in the front right.

DO NOT PUT STICKERS ON ULB PROPERTY!

Etiquette

Take all trash with you, no matter if yours or not.

Use the trashcan at the front.

Etiquette

If you have more of a comment than a question...

We will shut you down more than you getting to speak...

Etiquette

Speakers do this for free.

To maximize Q&A time we will allow you to leave & enter during the Q&A.

Leave and enter quietly or we WILL shout you down.

Code of Conduct

Anyone with a blue or yellow shirt

Be excellent to each other
