By 2048 young people love to  
tinker, experiment, and code with  
Free Software as the default

**From:** Matthias Kirschner <mk@fsfe.org>  
**Subject:** Books explaining Free Software for Children  
**To:** discussion@lists.fsfe.org  
**Date:** Thu, 15 Jun 2017 07:25:43 +0000  
**Message-Id:** <1497511458.d3crmef4z5.mk@vita.none>

Hi there,

does anyone of you have good recommendations for books explaining Free Software topics, basics of computing, source code, etc. to children. I am interested in books for the age from 3 to 12. Also things which are slightly connected would be appreciated.

Best Regards,

**Matthias**

# Nothing → bedtime stories

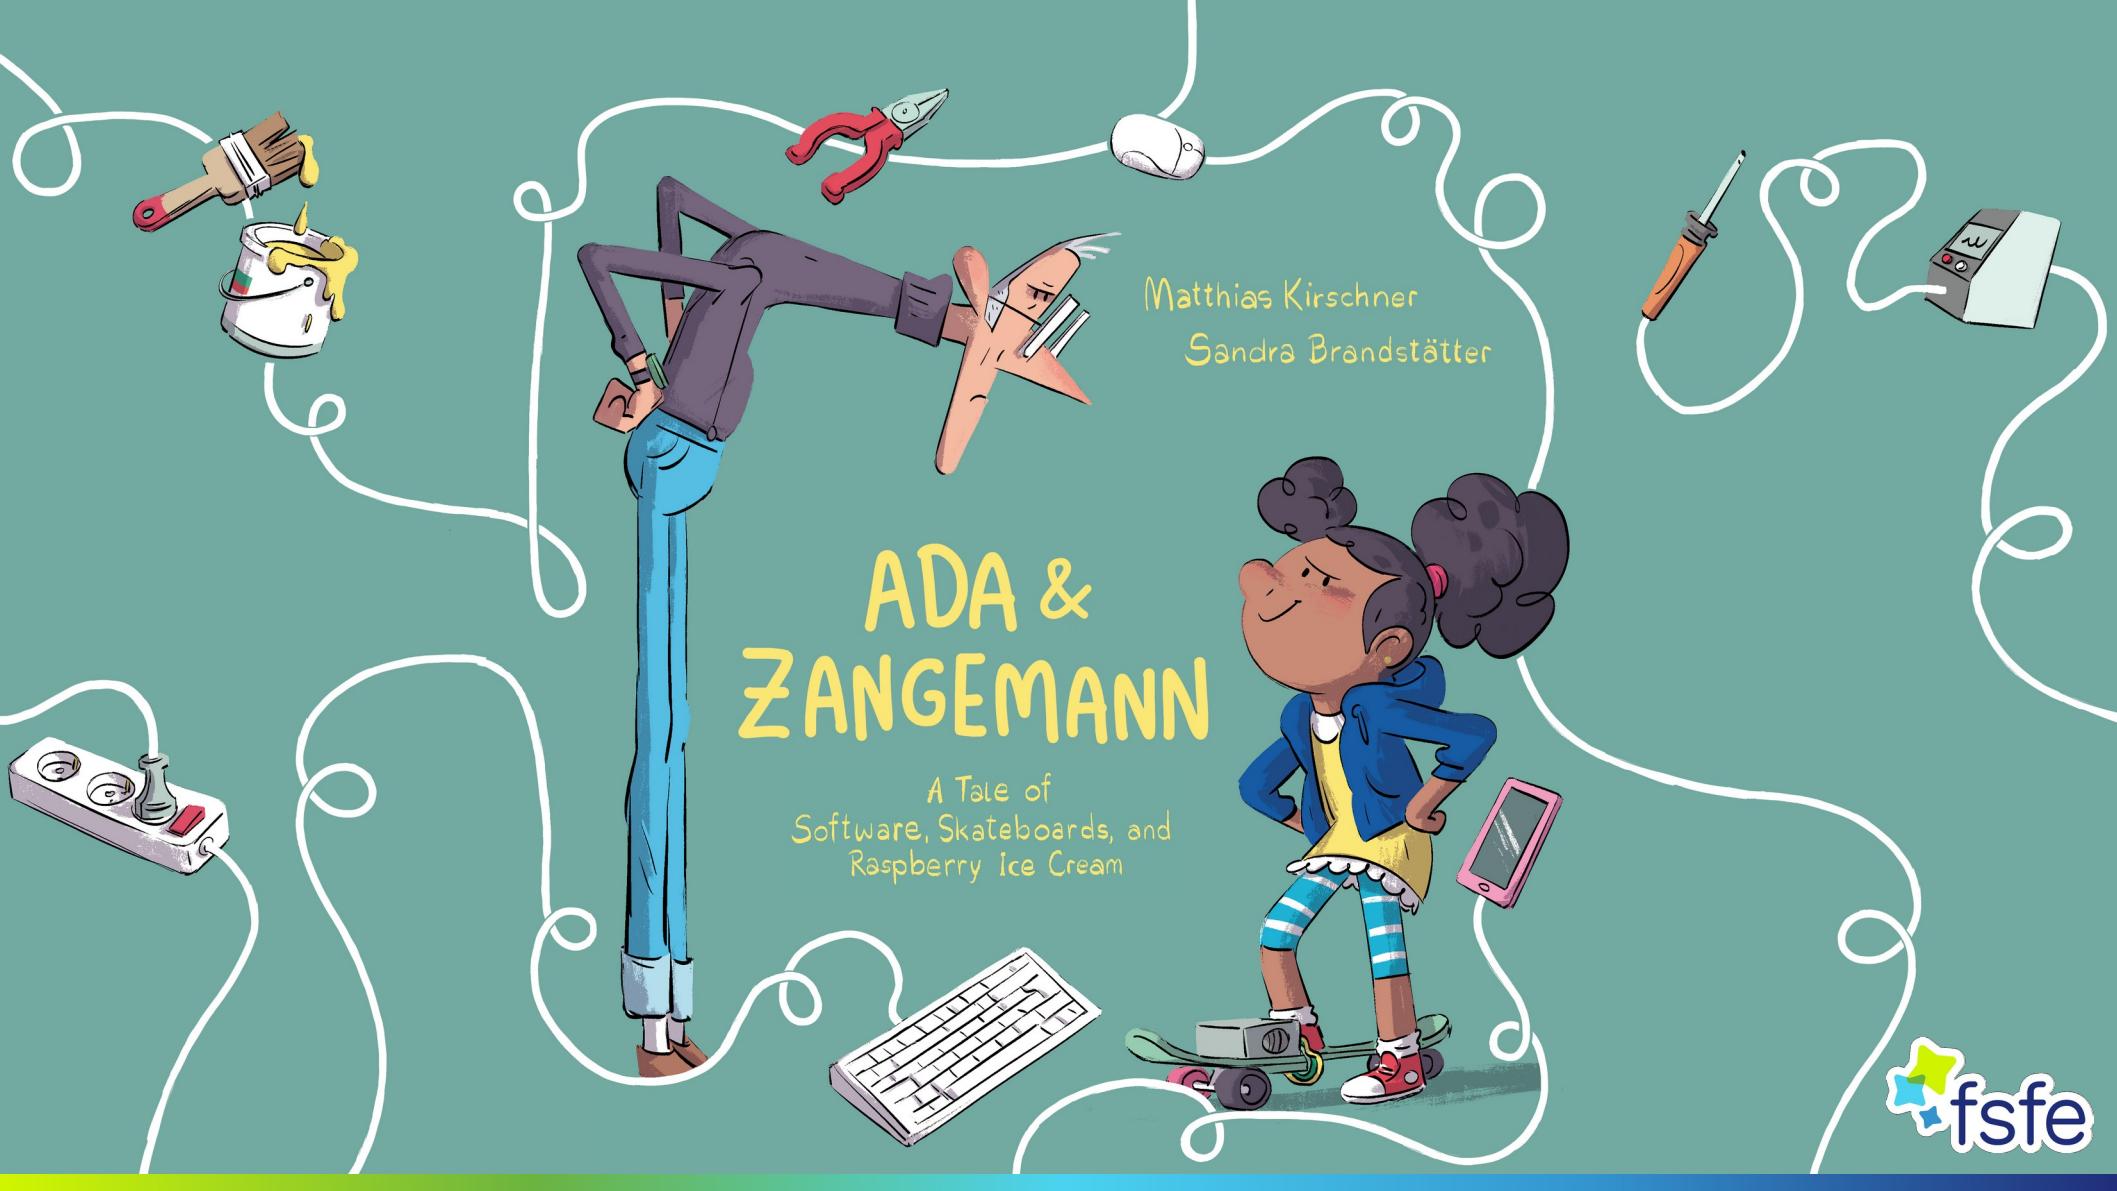

Es war einmal ein kleines Mädchen namens Ada. Sie war so arm, dass sie kein richtiges Haus hatte, sondern mit ihrer Mutter und ihrem Bruder in einer Hütte am Rande einer Schrothalde lebte.

Weit weg, am anderen Ende der Welt, lebte ein schrecklich reicher Erfinder namens Herr Zangemann. Er wohnte auf einem Berg in einem furchtbar großen Haus mit Schwimmbad und Wasserrutsche, vielen Treppen, Türmen und hundert Fenstern, von denen aus er über die ganze Stadt blicken konnte.

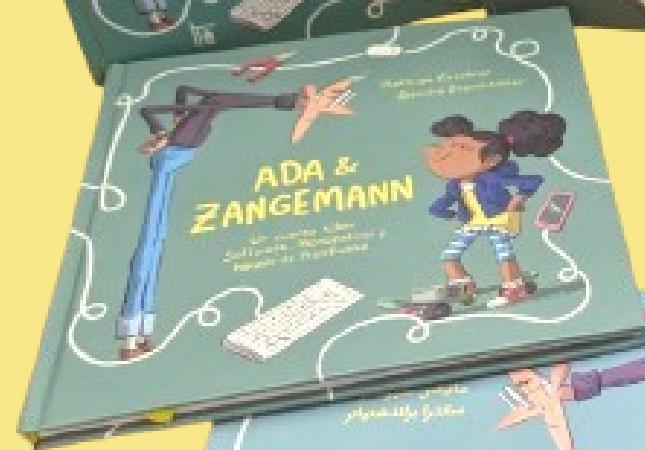

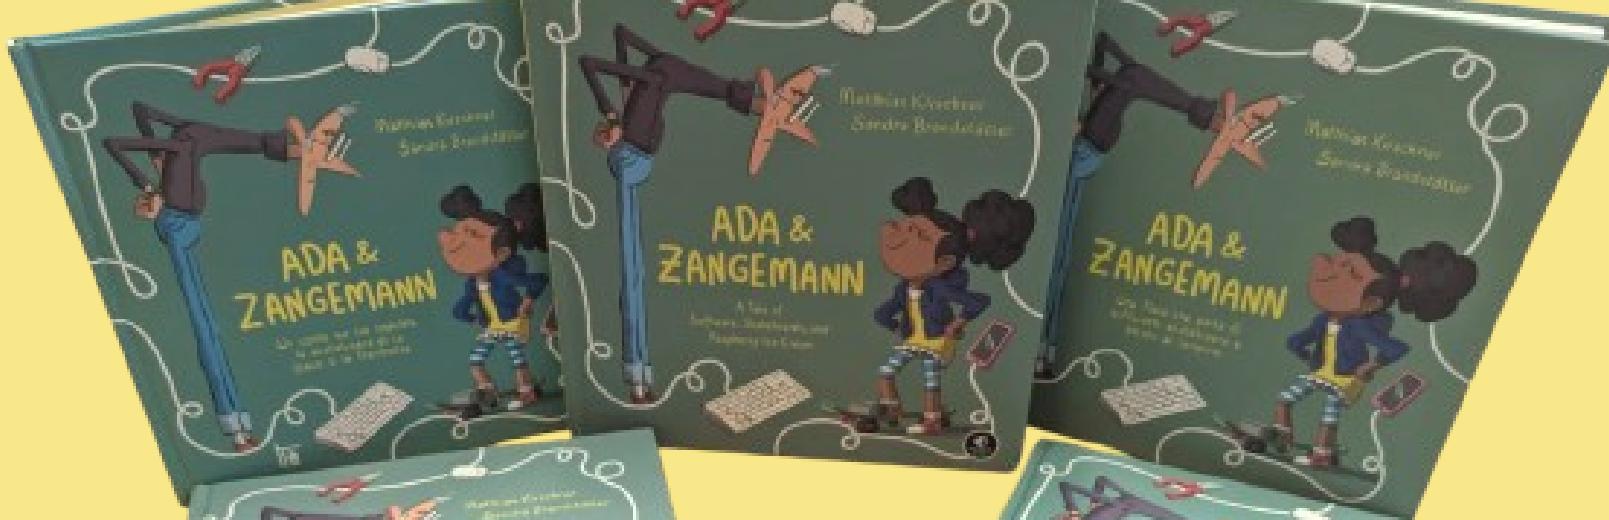

# ADA & ZANGEMANN

A Tale of

# One source, multiple output formats

# ADA & ZANGEMANN

A Tale of  
Software, Skateboards, and  
Raspberry Ice Cream

Once upon a time, there was a little girl named Ada. Her family was so poor that all their savings fit inside a cookie jar. They didn't have enough money to live in a proper home. Instead, Ada lived with her mother and her little brother, Alan, in a cabin near a junkyard on the edge of town.

## ACKNOWLEDGMENTS

After a few days, the initial shock at Ada's school was forgotten. The skateboards still didn't go on the sidewalk, but apart from that, they still worked. And so now the children rode in circles around the playground and listened to soft music. Only a strange, pompous marching music continued to play at an unchanged volume, which the children found rather puzzling.

# Room for improvement

## What

- Automate as much as possible
- Reduce drawing by hand
- Translations via Weblate
- Support more output formats
  - Kamishibai, dual-language, webbook
- Wide programming language support
- Reuse existing tools
- Automatic flow of text around images
- Translation-specific image links

## How

- Split parsing and rendering
- Change to a standard source format
- Use fonts
- Adopt Weblate

# HOW STANDARDS PROLIFERATE:

(SEE: A/C CHARGERS, CHARACTER ENCODINGS, INSTANT MESSAGING, ETC)

SITUATION:  
THERE ARE  
14 COMPETING  
STANDARDS.

14?! RIDICULOUS!  
WE NEED TO DEVELOP  
ONE UNIVERSAL STANDARD  
THAT COVERS EVERYONE'S  
USE CASES.

SOON:

SITUATION:  
THERE ARE  
15 COMPETING  
STANDARDS.

# DocBook XML modeling

## Basic structure

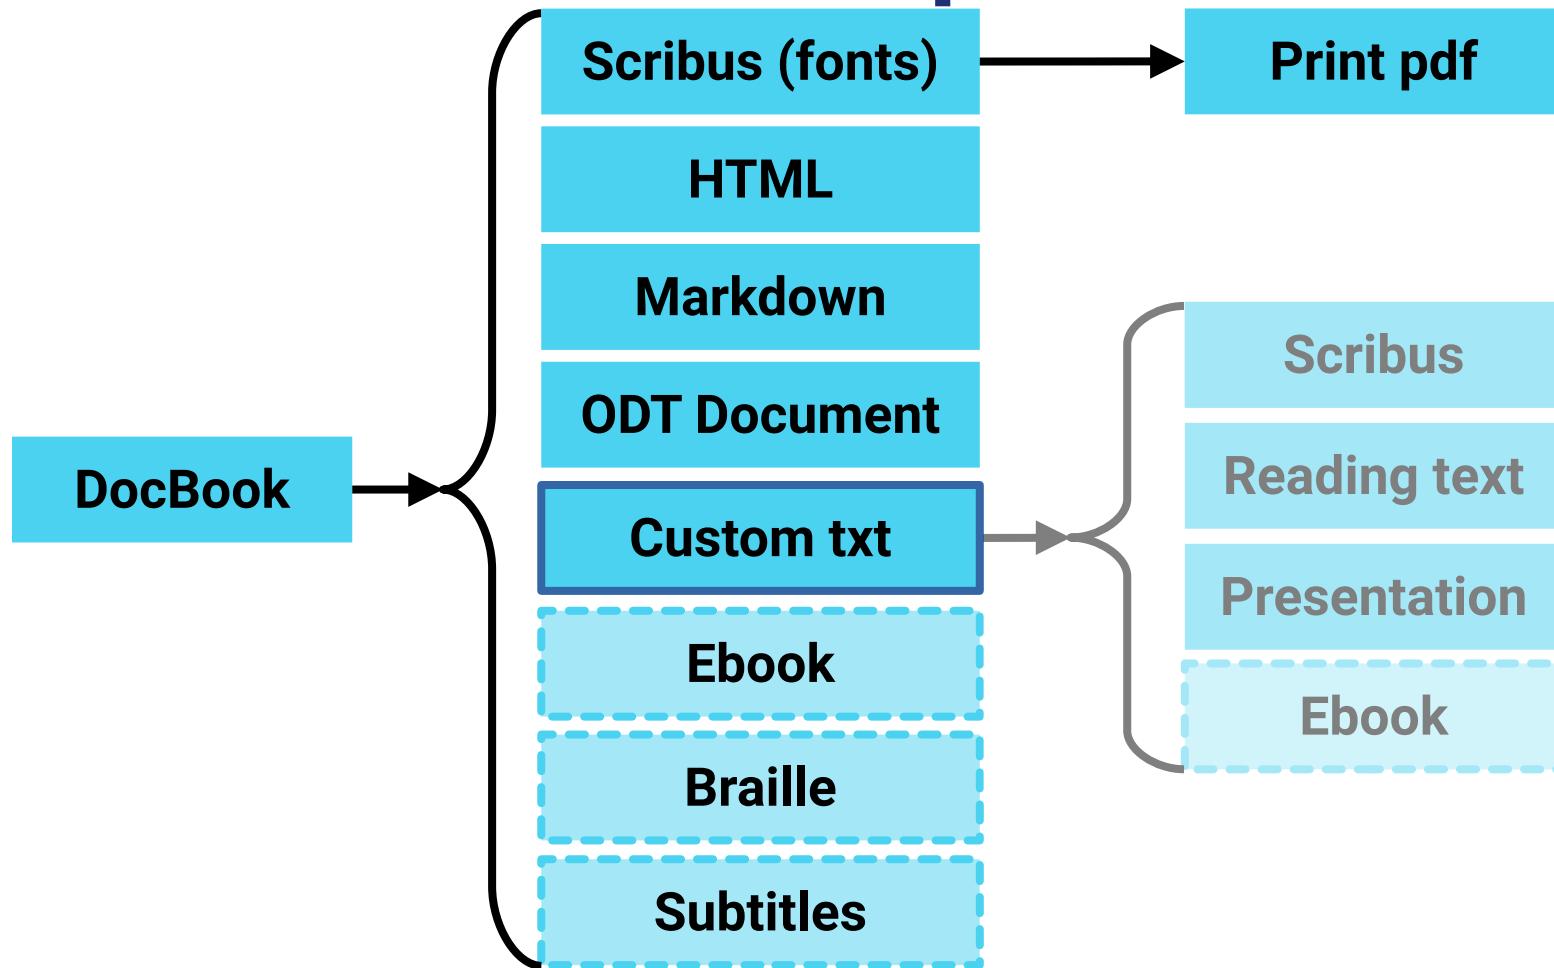

- Colophon
- Metadata (ISBN, author, etc.)
- Profiling for different output formats
- Anchors to mark slide transitions
- Alt-text for images

## Extensions

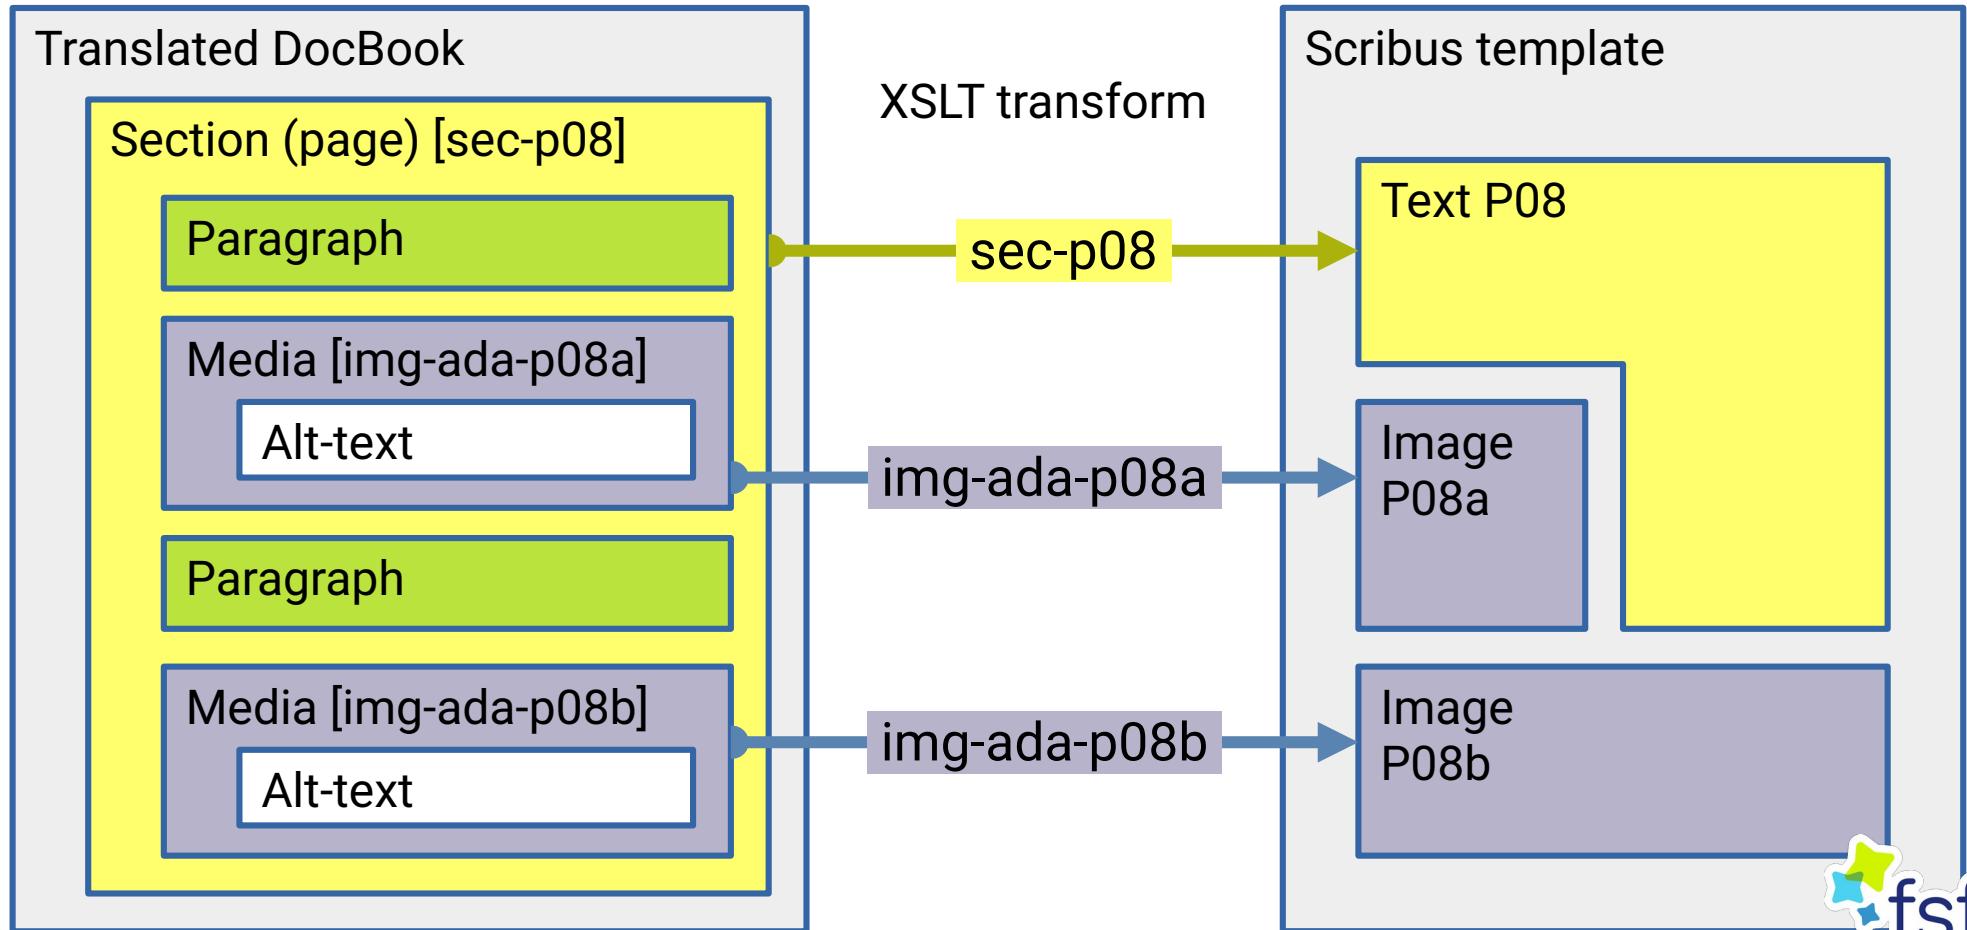

- ITS translation structure
- XML Ids for reference
- Dropcap information (images, color)

# Even more output formats

# Filling Scribus

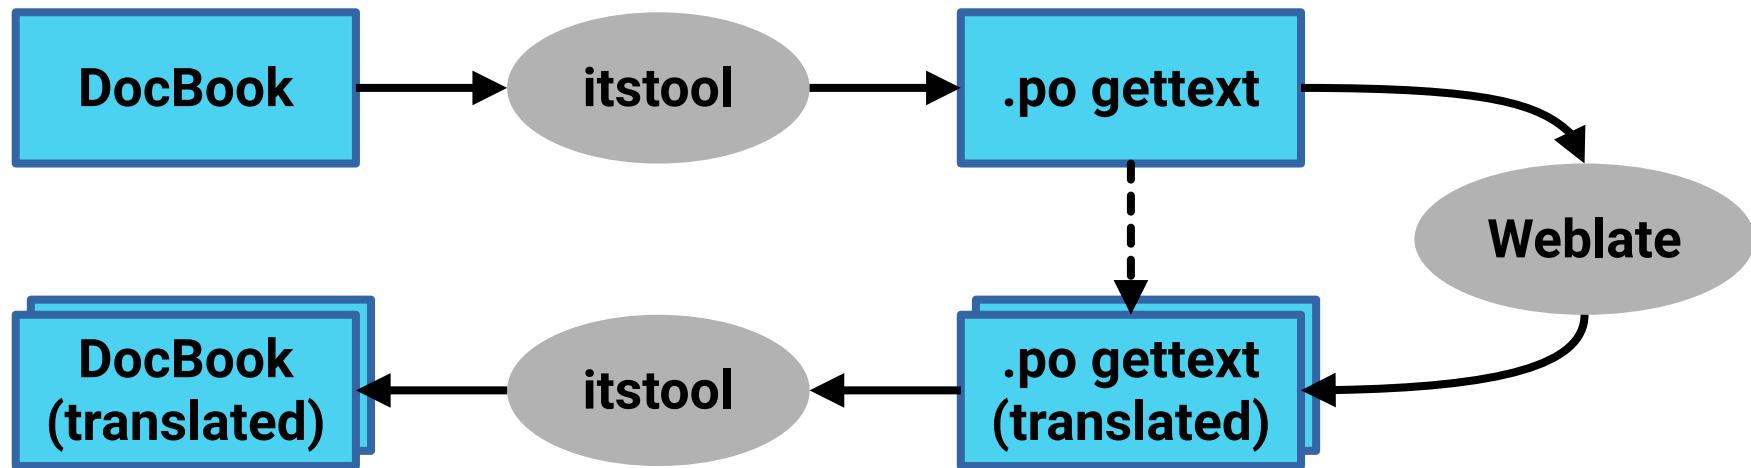

# Translations

Docbook XML

Gettext

Weblate

## Ada og Zangemann

En fortelling om programvare, rullebrett og bringebæreris

By [Matthias Kirschner](#) [Sandra Brandstätter](#)

Paperback  
EUR 19.95

Share [f](#) [X](#) [p](#)

Usually printed in 3 - 5 business days

Oppfinnen Zangemann er verdenskjent og uhorvelig rik. Både voksne og barn elsker hans fantastiske tekniske oppfinnelser. Men en dag er det et problem: barnas elektroniske rullebrett virker ikke lenger som de skal. Hva er det som skjer? Den nysgjerrige jenta Ada innser hva som foregår. Sammen med sine venner eksperimenterer hun med maskin- og programvare, og barna lager en plan: Zangemann kan ikke lenger være den eneste som kontrollerer dingsene!

En bok som vekker interessen for fikling og oppmuntrer til å forme teknologien.

# 옛

날에 에이다라는 이름의 작은 소녀가 살고 있었어요. 그녀의 가족은 너무 가난해서 전 재산이라곤 쿠키통안에 들어있는 돈이 전부였어요. 그래서 좋은 집을 사기에 충분한 돈이 없었지요. 그래서 에이다는 엄마와 남동생 앨런과 함께 도시 외곽에 있는 고물 수집장 옆의 낡은 오두막에서 살았어요.

# АДА И ЦАНГЕМАНН

Изобретатель Зангеманн всемирно известен и невероятно богат. Его потрясающие технические изобретения любят и взрослые, и дети. Но однажды возникает проблема: детские электронные скейтборды перестают нормально работать. Что ж происходит?

Ada racing with her electric skateboard for city sidewalks. Ada's skateboard is blue, with gray and pink wheels; the electronic part is placed above the skateboard (as opposed to Zangemann's skateboards where the electronic part is below). Ada is holding in both hands a remote control with a short antenna to maneuver it. Behind Ada are Marie and Toni who carry their own skateboards under their arms and look with amazement at Ada, who has shot past them and in front of them. Marie has dark long hair with two braids fastened with orange clips, yellow earrings, a fuchsia shirt with white sleeves with purple horizontal stripes, a white skirt, white and yellow sneakers, white socks, a white hat with yellow sides, and a light purple backpack. Marie has a blue artificial leg. Her skateboard is blue with yellow wheels. Toni has red hair closely trimmed on the sides. He is wearing a blue sweatshirt, dark green pants, and white shoes. He has a red backpack with white inserts and shoulder straps. One hand is next to his mouth...

**E**s war einmal ein kleines Mädchen namens Ada. Ihre Familie war so arm, dass all ihr Erspartes in eine Keksdose passte. Sie hatten kein Geld, um in einer richtigen Wohnung zu leben. Stattdessen wohnten Ada, ihre Mutter und ihr kleiner Bruder Alan in einer Hütte in der Nähe eines Schrottplatzes am Rande der Stadt.

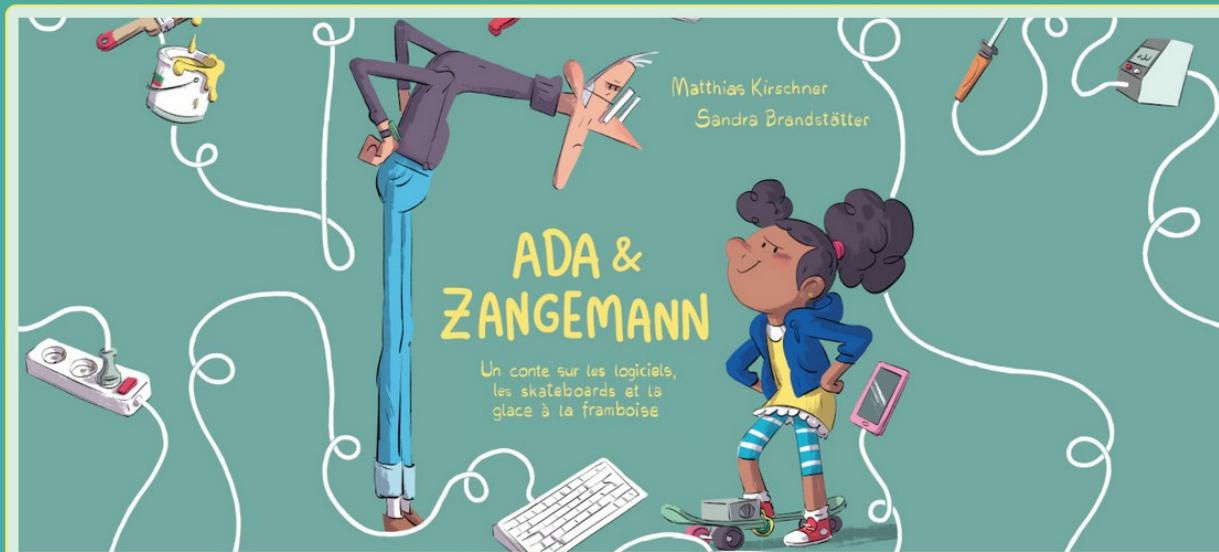

Weit weg, am anderen Ende der Stadt, lebte ein berühmter Erfinder namens Zangemann. Der war unermesslich reich. Kein Papierblatt dieser Welt war groß genug, um seinen Kontostand mit all den Ziffern und Nullen darauf auszudrucken. Er wohnte in einem riesigen Haus mit Schwimmbad und Wasserrutsche, vielen Treppen, Türmen, Hunderten von Fenstern und so vielen Zimmern, dass er darin verirrte. Zangemanns

**I**l était une fois une petite fille qui s'appelait Ada. Elle et sa famille étaient si pauvres que leurs économies tenaient dans une boîte à biscuits. Ils n'avaient pas assez d'argent pour vivre dans une vraie maison. Ainsi, Ada, sa mère et son petit frère Alan habitaient-ils une cabane à proximité d'une décharge à la périphérie de la ville.

Loin de là, à l'autre bout de la ville, vivait un célèbre inventeur du nom de Zangemann. Il était immensément riche. Aucune feuille de papier n'était assez grande pour y écrire tous les chiffres et les zéros de son compte en banque. Il habitait une immense maison avec piscine et toboggan aquatique, de nombreux escaliers, des tours, des centaines de fenêtres et tant de pièces que lui-même s'y perdait régulièrement. La propriété de Zangemann était construite au sommet de la montagne. De là-haut, il pouvait observer toute la ville.

Bienvenue sur « Ada & Zangemann à l'école », le site en construction de la communauté scolaire francophone dédié au livre Ada & Zangemann et à tous ses dérivés rendus possible par la licence libre. Nous invitons les enseignantes et enseignants à découvrir et s'approprier Ada & Zangemann pour en faire profiter leurs élèves, en classe comme à la maison. Car nous pensons que ce conte constitue une excellente médiation pour évoquer le numérique et ses enjeux dès le plus jeune âge.

### Lire en ligne

Lecture en ligne du livre, en français mais aussi en anglais et en allemand.

### Voir le film

La version film du livre, en français, anglais et allemand.

### Écouter

La version audio du livre au format Ogg Vorbis en français allemand anglais italien.

### Étudier

Ressources et dossiers pédagogiques pour préparer des activités avec les élèves.

### Lire en classe

La version diaporama, avec les images sans le texte, pour une lecture publique du livre.

### Jouer au jeu

Un jeu de plateau en cours de réalisation autour du livre.

Fai i tuoi compiti

Signor Presidente che

noi facciamo i nostri!

Siamo i giovani e i bambini

bisogno del Codice!

VOGLIAMO IL

CODICE LIBERO

Dear Zangerman I used to like your invention infact I still like them but you are starting to use them in the wrong way. It's not fair that some people have to eat, drink and listen the music that they don't like. When you do that people can see you inside out how selfish you are. It's much better if you share your inventions ~~because~~ it doesn't mean they are stealing; it means they just are borrowing it, and making it better for people. So please share your Idias. It will make our planet much better

## Readme

We would like to thank the Lichtburg Essen for the creation of the DCPs files for the different languages.

"We took over the creation of the DCPs for the film 'Ada & Zangemann' free of charge. Since we only use Free Software in our creation process (Handbrake, Subtitle Edit, OpenShot Video Editor for pre-editing the material; DCP-o-matic on a powerful render server for the actual DCP creation; as well as Aurora Files, FileZilla Server and Client for the provision), we were very happy to support the FSFE in this way."

- Lichtburg Essen

*German*

"Die Erstellung der DCPs zum Film 'Ada & Zangemann' haben wir entgeltfrei übernommen. Da wir in unserem Erstell-Prozess ausschließlich Freie Software (Handbrake, Subtitle Edit, OpenShot Video Editor für die Vor-Bearbeitung des Materials; DCP-o-matic auf einem starken Render-Server für die eigentliche DCP-Erstellung; sowie Aurora Files, FileZilla Server und Client für die Bereitstellung) verwenden, haben wir auf diese Weise sehr gerne die FSFE unterstützt."
